Rev. E. Van Deventer, Presiding Elder of this diocese of the M. E. Church, has just returned from a 7-weeks' visit to the Northern portion of his district. His jurisdiction consists of the whole of Nevada and several counties in California and Oregon.

Nevada is not the only State that has fallen off in population. The State of Connecticut has fallen off to such an extent that she will in all probability lose a Congressman. The decrease appears to be in the agricultural districts, which has, as a general thing, been Republican.

The following letters remain uncalled for in the Carson City Post-office, July 19, 1890: Ladies—Mrs. C. B. Barrett and Miss Gamble. Gents—C. S. Anderson, Arthur A. Folsom, Hans C. Jansen, Henry Kattelmann, Legraft Bros., James Lelliker, Peter Lemis, Samuel Little, Louis Waters. Registered letter—Giuseppe Pedrolli. R. S. Rodman, Postmaster.

"The Speaker's Error," by X. M. C., one of the leading articles in the July number of the North American Review, was ordered printed in its entirety in the Congressional Record as part of the regular business of the House of Representatives on the 11th inst. This is the first time in the history of Congress such a distinction has been accorded any periodical.

Frank McCollough has been nursing a large rhubarb plant for the last month, and it has reached tremendous proportions. From tip to tip the largest leaf is 40 inches, and 44 from side to side. Any good mathematician can figure out the circumference in his mind, but when one comes to measure the frilled edge it is 20 feet two inches, and more before it shrunk. The leaf is now on exhibition at this office.

## Throwing Away Silver.

The Inyo Independent says: When P. Key and A. J. Davis were taking out galena ore recently at the White Hills they encountered a vein of ore of unusual character. It is not crystallized like galena nor is it so heavy. It is brittle, fine grained, has dark lustre and very dark color. It was thought to be worthless and several tons of it were thrown down the mountain. As a matter of curiosity a sample of the ore was sent to J. A. McKensie at Darwin for assay. Mr. McKensie replied that he found the ore contained 772.30 ounces of silver per ton. He thinks it also contained gold, and reported he would assay for that metal. Key and Davis are not throwing any more of the ore down the mountain. It is not yet known how extensive the ledge may be.

## Virginia's Murder.

Mr. A. J. McGowan, of Virginia, Wm. Woodburn's clerk, who came down from Virginia yesterday, informed an APPEAL reporter that when Shaughnessy and Hoban came to the surface from the scene of the Comstock mine murder, they were as pale as ghosts, and gave their answers to inquiries in a disconnected way. Crowley did not seem to know what he had done, and asked what time it was when he was hoisted to the surface.

The feeling among the two factions—Cornish and Irish—is not as strong as at first supposed, as the Irishmen refuse to talk about the affair.

## Back Again.

Yesterday about noon, the editor of the APPEAL dropped into the office and began to make himself at home.

After cussing the typos for a few minutes he chuckled a wad of copy on the hook and then walked a couple of times about the block to get a whiff of pure Nevada air.

He has increased about ten pounds in two weeks, but looks tired; as if he had met the Southern California Press gang late at night and kept meeting them. He declined to be interviewed, and acted as if he expected to retire early last evening.

## Sensation at Los Angeles.

LOS ANGELES, July 21.—A sensation was caused today by the non-appearance of ex Assemblyman Damron on three charges of forgery. His bail bonds were declared forfeited and an attachment issued for his arrest. Damron was seen in the City as late as 12 o'clock last night, and many believe he is still in hiding here. He stated at his hotel that he was going into the country with his family. It was found this morning that he had sold his law books to a second-hand store. The Sheriff has telegraphed in all directions.

## Sunol.

DETROIT, July 21.—Robert Bonner's new purchase, the beautiful California filly, Sunol, was driven a practice mile at Hamtramck track this morning, and surprised the stablemen by showing a mile in 2:15. She made the last half in 1:04 1-5, and when Mavyn, the driver, called for a spurt on the last quarter, she came down the home stretch from the three-quarter pole in 30—a two-minute clip. The track is in a superb condition, and most of the drivers think Sunol can beat Maud S.'s time.

## A Use Found for Coyotes.

Fruit men believe that coyotes are their best friends because they are death on rabbits. Coyotes have been imported to Australia with a view to exterminating the throngs of hares that flourish in that country. Our Board of Supervisors have thought it advisable to withdraw the \$5 bounty for coyote scalps. Placer has done the same thing.—Nevada Herald.

Dr. Gray, the painless dentist, will remain in the city until Friday the 25th, and parties should take advantage of the limited time to get their work done.

## Oroville Shocked.

Oroville's "Four Hundred" is dreadfully worked up. A few days ago a number of young people of both sexes went pic-nicing. The day was hot and all hands joined in wading in a pond. One of the young men had a Kodak with him and got some photographs of neat limbs. After awhile the boys went into the brush and the girls went swimming without bathing suits. Again the Kodak got in its deadly work, and the photographs have since been shown to several people. The young men have left town for a while.
